

How Shiny is Shiny?

- Start with Rich Andrade's 1993 Amazon Green Porsche 928 GTS
- Perform a spectacular multi-stage cleaning/buffing with ceramic coating
- Add a beautiful Arizona day with some high fluffy clouds

Do You Have Traffic In Sight?

During our photo shoot, a jet is coming in to land. I hope we aren't in the way

This 2009 Cessna Citation Mustang 510 just arrived from a 56 min flight from Mc Clellan -Palmar Airport near Carlsbad, California

There was taxi clearance

Traffic Was Not A Factor

Taking a closer look at the shine

Who is the detail Meister? He is Mathias Baucum

More Traffic In Sight

- My Guards Red 1979 Porsche 928 is next in line for a ceramic coating
- The Mooney M20R has already had its ceramic coating applied

The ceramic mirror coating keeps traffic in sight from many angles

Wow what a shine!

Even More Traffic In Sight

Mathias' 1976 Mercedes 240D was ceramic coated over a year ago

Here I am in also in my 928 GTS roof shine

Ceramic coating helps all wings perform with maximum efficiency

Mathias' Handywork

Ceramic Coating from zero AGL to the Flight Levels
